# The President's Corner: David Israel

#### From peacocks to alligators

The past month has been interesting and a bit strange. There appears to be a small flock of peafowl that have moved into the Village, and perhaps the golf course. UCO received a letter and a number of calls about the loud squawking of the birds very early in the morning, keeping people awake. In due course we engaged a trapper to capture and relocate the birds. Within days of this action, however, we discovered that some owners were feeding the creatures, and the owners chased our trapper from their Association property! UCO quickly terminated the activities of the trapper, thus putting an end to The Great Peacock Controversy.

One very important point: UCO receives reports of our residents feeding ducks, raccoons, sandhill cranes, peafowl, and — beyond ALL belief — alligators. Feeding some of these creatures violates Federal and Florida Statutes — not to mention the fact that feeding alligators is a very dangerous business. UCO, in cooperation with W.P.R.F. Inc., has decided to have some alligator warning signs posted in key locations. We will also entertain proposals for alligator removal, by professionals. However, all efforts to counter the *avian* invasion will be terminated. The peacock, although a bit messy and noisy, is, after all, a very beautiful adornment.

#### Road and drain repairs

You may notice some engineering personnel in the village. They are conducting a study of the roads and parking streets. Keeping in mind that the Bilateral Agreement places the responsibility of maintaining all such road surfaces on UCO, this study is prologue to a major roadway repair and upgrade. The study will include Association parking areas and streets, and will also encompass the drainage system, in order to better understand the drainage patterns and ways of eliminating flooding during major rain events.

# He's the Host with the Most on Channel 63

By Syd Kronish

David Saxon is a man for all seasons — and for all residents of the Village.

Dave, as most of you know, is the host of Channel 63's program *Village Report with David Saxon*, seen several times daily.

Looking back at this amazing man's accomplishments, you realize he is the epitome of the expression "been there, done that."

As a former radio and TV talk show host for 27 years, Dave has lived and worked in several states and 32 countries — with more in future sight.

Dave was born in Brooklyn USA, where many of our CV'ers have originated. He was always interested in the broadcasting field. His first job, as a radio announcer, was in the small town Chillicothe, Ohio. He laughingly said that the name is bigger than the town itself.

From there, he worked (on and off the air) in such locations as Puerto Rico, The Virgin Islands plus several cities in the U.S.

But he is no stranger to Florida. Dave was employed at a radio station in Miami. While there, he met his lovely wife Michaele and recently celebrated their 31<sup>st</sup> wedding anniversary on Valentine's Day. Proudly, he notes that they are the grandparents of seven, ranging from 2-27 years of age.

Dave also is proud to tell us that he served in the U.S. Air Force, stationed overseas,

#### **Save the Date**

UCO Budget Workshop, September 14, 9:30 am, Classroom C. From the Desk of Vice President Bob Marshall

By now, many of you may have seen men working on or by the streets of the Village. These people are from an engineering firm that UCO has hired to do some preliminary engineering work that should give us useful data to help in determining when the project should be started, and what, if any, drainage shortfalls exist and need to be corrected.

Also, by project's end we should have a Request for Proposal document that would then be completed by potential vendors who wish to bid on the resurfacing of our roads and parking areas. This obviously will tell us what this project will cost and whether we currently have the funding to proceed.

**Comcast**: The classes that have been held to help unit owners better understand how to use their Comcast remote control devices are continuing. Those who have attended seem to have been helped. Call the office and ask to be scheduled for an appointment. The classes are purposely small to give everyone hands-on help.

David Israel has asked me to review the retention periods for our day-to-day documents and set up a process to rid ourselves of documents no longer needed. As an addendum to this request, we will look at bringing the office into the computer age. Yes, we have and use computers in the office, but the usage is not as current as it could be.

We will be looking at storing data rather than storing paper. This usage should make data available to anyone in the office with a need to know, and without searching from file cabinet to file cabinet. There will be cost associated with implementing this project.

Speaking of budgets and budgeting for our associations, that time of the year is fast approaching. For those of you who have outstanding delinquencies, be sure to include a "bad debt" line in your expense budget. If it is not included, the association may well find itself without the resources to pay for the expenses in the late months of the year. Yes, you can tap into your reserves in an emergency, but those funds must, by law, be replenished in the new year, usually by a special assessment.

If you have questions, please come to the office and request help.  $\square$ 

Delegate Assembly Fri, July 2, 9:30 am Clubhouse Theater

#### At the Delegate Assembly Mary Patrick

#### June 4, 2010

President David Israel called the meeting to order at 9:30 am. There were 162 delegates in attendance.

Lt. David Kronsperger led the Pledge of Allegiance. He reported that there was no crime in CV during the month of May. He urged residents to be prepared for the Hurricane season.

David introduced the following guests who briefly addressed the Assembly: Paulette Burdick, Candidate for P.B. County Commission District 2; Pete Burkert, Democratic candidate for State Senate; Sarah Alsofrom, State Attorney's Office; and Jean Dowling, Candidate for School Board District 2.

Ms. Alsofrom announced that her office is looking for young people (age 16 and over) who are interested in a summer internship. This is an unpaid position and community service credit will be given. She also asked for adult volunteers throughout the year. Those interested should call 355-7100 and ask for the Volunteer Director.

The minutes of the previous meeting were accepted as corrected.

Treasurer's Report: Dorothy Tetro reported that she is in the early stages planning the UCO 2011 budget. There will be a budget workshop on September 14th in Room C at 9:30 am.

President's Report: Dave announced that there will be an engineering study concerning our drainage systems, roadways, parking lots, etc. He also reported that Century Village Realty will be tented over the weekend.

There was no **Unfinished Business**.

**New Business**: Randall Borchardt read the Bylaw Amendments printed in last month's *UCO Reporter*. A vote was taken and the motion passed with two opposed.

Dave announced his selections for the Executive Board as follows: Michael Rayber, Bettie Bleckman, Toni Salometo, Lanny Howe, Al McLaughlin, and Isabelle Scherel. It was decided to vote on each name, one at a time.

The Delegates approved all.

After reviewing three bids, Simmons & White has been selected to do our Engineering Study. **MOTION**: Phil Shapkin moved that we approve the \$20,000 fee for the engineering study to be paid from the Road Reserve Fund. Louise Gerson seconded the motion. Approved unanimously.

Rodger Carver, our CAM, reported that the walkways around the perimeter road are being patched on a regular basis.

**Committee Reports** 

CERT Team Leader, Jackie Karlan, reported that CV has a comprehensive survival plan in case of an emergency to help our residents. Printed forms will be used instead of door hangers to be filled out by an officer in each building and returned to the UCO office. A generator at the UCO office will keep the office running post disaster. The next CERT meeting is June 21st at 3 pm in the Art Room.

Safety Chair, George Franklin, reminded residents not to feed any wildlife, including Peacocks, Raccoons, Alligators, etc.

Community Relations Chair, Ted Silverman, asked residents to give him the names of anyone turning 100 so they can be invited to the next Centenarian Dessert Buffet.

Insurance Committee Chair, Toni Salometo, asked everyone to check the changes to insurance in her *UCO Reporter* article. It's time for new Mitigation forms. During the week of June 14<sup>th</sup>, roofs on all buildings will be inspected. Calls will be made to Associations informing them who and when the inspectors will be doing their building. Someone in the building needs to grant access to the roof.

Maintenance Chair, Dom Guarnagia, asked Associations to remind their residents to check toilet tanks, valves, hot water heaters, etc. to avoid water damage. For any questions, he can be reached at 615-5697.

Dave requested that committee chairs submit their reports to the UCO office the Monday before each Delegate meeting.

Good & Welfare followed. □

#### At the Library By Chuck Waugh Talking Books at Palm Beach County Library

Talking Books are popular books and magazines recorded on cassette tapes for adults and children who are unable to use regular printed materials. The Palm Beach County Library System lends Talking Books, along with special cassette players, free of charge to eligible patrons. Anyone unable to read small print or unable to hold a book or turn pages is encouraged to call the Talking Books Library. All services are available by mail or in person.

All Talking Books services, including postage, are **free** of charge. The Talking Books Library is a special service of the Palm Beach County Library and a part of the Library of Congress National Library Service for the Blind and Physically Disabled.

#### **OFFICIAL NOTICES**

#### **Association Insurance Changes**By Toni Salometo

The only certainty in the Florida insurance environment is that each year there will be changes, some that makes sense, some that leave us scratching our heads.

The Governor signed into effect Senate Bill 1196, which one agent called the "Condo Glitch Bill." So called because there have been so many miscues in prior years, that the Legislature has passed this bill to correct them.

The parts of the Bill that are of particular interest to us are the changes to the requirement that individual condo unit owners must carry Homeowners' Insurance. This has been amended so that the association is now responsible for deciding whether or not unit owners' need to carry insurance. The association, by amending their bylaws, can decide that all unit owners must carry insurance. Or, they can decide not to amend and leave it up to the individual owner to make their own decision regarding purchasing Homeowners' insurance.

If the unit owner decides to carry their own policy, then there have been changes in what information should be on the policy. It is no longer necessary to name the association as an "Additional Insured" on the unit owner's policy. Also, it is mandatory that the "Loss Assessment" shown on your policy be for at least \$2,000.

The state has left to the associations the responsibility for deciding whether to enforce individual unit owners' buying Homeowners' insurance. This is a good thing. The cornerstone of the American experience has always been self-determination, our ability to decide for ourselves. However, this need has to be tempered with a realistic approach to our desire for financial security and peace of mind.

#### \$1700 saved in one month on non-idling buses

Your Transportation Committee, in cooperation with UCO, recently ordered the bus engines to be turned off while buses were standing at the Clubhouse stop. These stops, with engines running for 15-20 minutes, were wasting fuel and polluting the air. In the first month of this experiment, a savings of some \$1700 was realized. This action was not without its critics, namely certain riders who object to sitting on the bus for 15 or more minutes without air-conditioning. UCO recommends strongly that these passengers wait in the air-conditioned Clubhouse until just prior to the departure of the bus. *The buses cool off within two minutes of restarting*.

#### **Electricity for UCO and WPRF during power outages**

We are upgrading the capability of the UCO office building by installing a 27KW generator. It will be fueled by propane from a 500-gallon belowground tank. In the event of a hurricane or other event causing a prolonged power outage, UCO will be capable of serving our unit owners as required. This upgrade will also allow the integration of our CERT cell during post-disaster events. Collateral to this installation, the Operations Committee approved the installation of a 10KW generator at the Clubhouse to power the W.P.R.F. office so that they too can provide basic services to our unit owners during power outages. These enhancements will arrive none too soon for the hurricane season. Yet another project approved by the Operations Committee was the fencing in of heat pumps that heat the W.P.R.F. pools. This project was mandated by changes in the health code and could not be avoided.

#### Help needed, please!

In closing, I must once again call for volunteers to step forward to help run our Village. We need a Recording Secretary to take minutes, as required by law at certain meetings. We need volunteers in our Investigations Department, in the UCO Reporter office, and, as always, on our UCO Reception Squad. We also need a person with a background in horticulture to lead a Landscaping and Beautification Committee. If you have expertise in any of these fields, please come forward. Help us to serve you and save money. Step up and give some of your time.  $\square$ 

# And Then There's This: Vice President Phyllis Richland

On Friday May 21, 2010, a workshop was held in the Clubhouse Party Room.

The guest speakers were from 211, which is an information referral and community education organization. It is a very comprehensive group and on this day, they were here in CV to discuss the kind of help they can give to our residents. In the past, when UCO hosted an event ,it was always very well attended. (By the way, we did serve refreshments on that Friday.) It has been a while since I organized such an event, and so, I prepared for 75 folks. Only 12 attended. Representatives from CERT were also there to speak regarding safety after a storm.

I believe our demographics have changed so radically in the past few years and many of our senior residents that would have come to a workshop are no longer here for one reason or another.

Our Village has attracted a younger resident between the ages of 55 and 75 and this age group is very active and cannot see themselves in need of 211 yet!!! But 211 is nationwide, and anyone anywhere can benefit from their services. So, if you know of someone that needs help, call 211.

There is a program offered by Palm Beach County Division of Senior Services for home energy assistance with help in paying your FPL bill if you qualify. You need to fit into their income requirements. So, call 561-355-4746, which is the PBC Division of Senior Services, and they will make an appointment with you or you can call me at UCO and I can tell you what the requirements are.

I am also working on getting food stamps for those residents that may need a bit of assistance. Everything is strictly confidential. If you call UCO, you can be sure any information stays there. The applications for the stamps can be done on the computer and I will be able to help you there. I would think that not everyone has a computer, so we are offering that help, too.

Well, that's it for me for this issue. Please be sure you are ready for the storm season and let's hope we dodge the bullet again this year. CERT is ready and able to jump in when needed and the UCO office will be operational after an event also.

The UCO office number is 683-9189. Remember, we are there for you.  $\square$

## The World of Nature

By Edythe Pekin

On a recent Sunday, a friend and I visited the **Garden of the Four Arts** in Palm Beach. It is off Royal Palm Way, the first street on the left after the bridge.

The Society of the Four Arts Museum is on the left side of the street and the library and garden are on the right side.

There are several small themed gardens, some quite shady, many with fountains or ponds. It was truly wonderful looking. The entrance has a ylang-ylang tree, which was flowering and giving off a lovely aroma.

As we went on a Sunday, the Library was not open, I suggest that you visit a different day, because the library is also an interesting place to visit.

The museum has a nice art collection. They sometimes show an art film on Fridays. The phone number is 655-7226.

While in Palm Beach, also visit Pan's Garden at 386 Hibiscus Street (corner of Peruvian). It is maintained by the Preservation Foundation of Palm Beach. The phone number is 832-0731. □

based in London, England.

Eleven years ago, David and Michaele selected our Village as their place of retirement and have enjoyed this style of living ever since.

When I asked Dave how he got the job on Channel 63, he said simply, "I asked my friend Ed Black if I could do this type on-air stuff. He said OK and I am delighted to talk to so many people in the Village."

Add to these accomplishments, Dave reports that he has been a Mason for 32 years and is the two-time past Master of his lodge.

Despite his busy schedule, David has been teaching Basic Computer at the Clubhouse for the past five months.

Oh yes, in his "spare time," David says he is an enthusiastic, but not very good, golfer.

To which we might add, "OK, so we ain't perfect!!"  $\square$ 

Insurance Toni Salometo

I sat down at my computer on a Saturday afternoon and started thinking about some of the things I wanted to say in this article. I had been to visit our insurance agent, Plastridge, on Friday morning, and we discussed renewal of our policies. Then we got to talking about all the water damage losses we have sustained in the Village in the last year or so. I started to say it was a "statistical anomaly," a once-in-alifetime shot, bad karma, pick your phrase. Then I stopped myself, no it wasn't. It's what happens when you don't take care of your property.

Forty seems to be the magic number. That's when all those nasty things start happening to our bodies: wrinkles and grey hair for the ladies — for the guys, a little more weight. It's just life and time and it happens to all of us. If we've acquired good habits in our first 40 years, our next will be much easier and happier. If we've let things slip, then we pay the price in aches and pains and doctor's visits. It's life.

It's the same with our property. If we've taken care of it, maintained our hot water heaters, changed the toilet fittings and insides, and have the pipes checked on a regular basis — life is easier and happier. We won't have water all over our walls and floors and those of our neighbors.

In the next few months, we (the Insurance and Maintenance Committees) are going to ask you and your Associations to step up and make some changes in how you take care of your properties. It may mean a little more time and

money expended on making sure that all your water appliances (hot water heater, toilet and pipes) are inspected on a regular basis and replaced or repaired as needed, but it is a small price to pay for the security of knowing that you're not going to have a flood or cause one.

How many of us, given what we know today, wouldn't have been a little kinder to our bodies 40 years ago? We might not have smoked, over-eaten, drank, and worked so hard we might have been kinder and more thoughtful. We can't bring back those years, but we are not so old we can't change. As we've changed our attitudes about our lifestyles, then we can change our attitudes about maintaining our properties. Or are we really so old we can't change?

If you have concerns or questions on our insurances, you can reach me at UCO, 683-9189 during office hours. We can set up an appointment to discuss them.

Thanks to Elaine Brown and Myron Solomon, we have two more agencies to add to our list of insurance agencies selling homeowner's policies. Same as last month, neither UCO, nor the Insurance Committee nor I recommend or approve these companies. We offer their names to you for your convenience — as agencies that write HO coverage in the Village.

#### CERT:

Community Emergency Response Team

#### Jackie Karlan

The CERT program was selected by President Bush in 2003 to be part of the Citizens Corps volunteer program which works to make communities safe. This team is part of FEMA, The Federal Emergency Management Agency.

Century Village has a comprehensive survival plan which will be implemented in the event of a disaster.

Under the direction of the team leader and assigned group leaders, we will identify problems in the Village, develop a plan of action and take action to help our citizens.

We have developed an AF-TER THE STORM RECOV-ERY EVALUATION FORM (see form on the left) which is to be filled out by each building president or a designated person who is in residence after a disaster occurs.

Call the number listed on the form. You will be reporting the facts to our phone squad who will be in the Command Station located in the UCO building 2102.

Our initial response will be to those buildings that contact CERT at UCO with their buildings needs. Call the numbers listed on the AFTER THE STORM RE-COVERY EVALUATION SHEET. Only the designated person from each building should call.

NOTE: The brightly colored door hangers which were used in the last hurricanes were not effective. Do not use them.

CERT is the organization that contacts agencies that will get help for you. Be Prepared.

Be sure to stock up on batteries, water and non perishable food. Have extra medication on hand.

Make sure all important documents, insurance papers, driver's license, health cards, passports are placed in a water tight envelope and located in a place you can reach quickly.

It's a good idea to make copies of these documents and send them to relatives living up north.

Many supply lists have been published in local newspapers and in our UCO paper. Follow the directions written on these lists.

Join us at our June CERT meeting, June 21, 2010 in the Clubhouse art room at 3:00. Everyone is welcome. □

CERT is checking readiness for storms; are you ready? (L to R: Jackie Karlan, John Hess.) Volunteers welcome at the next CERT meeting, July 19, Clubhouse Art Room, 3:00 pm.

#### Got Extra Land Phones?

It is important that our residents have land phones during hurricanes. If you have extra land phones, kindly call CERT at 478-8678.

#### **Condo Corner** Randall **Borchardt**

The following legislation is among the most significant changes (in large part from SB 1196) which will become effective as of July 1st, 2010. Less important changes have been excluded.

The requirement for individual owners to carry property insurance has been deleted.

A condominium association would be able to waive, by majority membership vote, retrofit requirements for existing elevators to operate during a power failure, and also delays the required retrofit of a special access key for elevators until the elevator is replaced or significantly modified.

Procedures are added to allow condominium associations to directly collect past-due amounts due by an owner from a tenant occupying the unit, including an association's right to evict the tenant for failing to make payments directly to associations.

The rights of condominium unit owners to inspect official records of an association have been modified to protect proprietary software, computer passwords, telephone numbers, and association employees.

Extends the deadline for retrofitting fire sprinklers in highrise condominium buildings from 2014 to 2019 and eliminates the restrictions on unit owners to waive the retrofit requirement by majority vote.

718.110(13) — This is an alteration (in **bold**) of the original Legislative amendment passed in 2004, whereas any amendment prohibiting or restricting unit owners from renting their units or altering the duration of the rental term or specifying or limiting the number of times unit owners are entitled to rent their units during a specified period applies only to Continued on Page 7

As we have now "officially" entered Hurricane Season (June 1), we have stepped up all preparations to insure the continued day to day operations of UCO, along with any emergency situations that may crop up during this time of year.

This is a monumental task undertaken by many dedicated UCO volunteers, in addition to those that serve on the Board in various capacities; however, in any emergency situation, all available hands are welcome. So, if you happen to be a yearround resident and are willing to contribute in some fashion, either as a contact person for your Association, or become involved with CERT, chaired by Jackie Karlan (whose article appears elsewhere), please do not hesitate to do so.

We have purchased a generator which will allow 2102 to function; it is fueled by a "buried" propane tank and have as well sanctioned the purchase of another generator to operate W.P.R.F's Clubhouse location. so that Ms. Cruz's and her staff can continue to provide the quality service we have come to know and expect without interruptions.

While on the subject of "interruptions," with the exception of some classes and clubs, everything else is up and running — so do come out, enjoy the pools, the newly refurbished ones, as well as the others, indoors or outdoors, sailing on the Lake, Movies, Karaoke, Sing a Long, Live Entertainment, the Computer Club, to name but a few.

In conclusion, I would like to take this opportunity to "Welcome" the latest additions (6) to the Executive Board of UCO. These individuals were selected by President David Israel and presented to the Delegates for their approval at the June Delegates Assembly Meeting.  $\square$ 

# Basic Disaster Supply Kit

Everyone needs to prepare for emergency situations, but shopping can be expensive and strenuous. Shopping for items a little at a time before an event can reduce the stress of recovery by avoiding long lines and empty shelves.

#### Food:

- 1 gallon of water\* per person per day for at least 5 days, for drinking and sanitation
- Sandwich bread (freeze until needed)
- 2 cans of ready to eat soup
- 1 box of crackers and/or granola bars
- Dry cereal/Pop Tarts
- 4 cans of fruit (2-4 pack)
- 5 cans of meat (tuna, chicken, Vienna sausages, corn beef hash)
- 4 cans of vegetables (beans, baked beans, corn, peas)
- 1 jar of jelly or jam
- 1 jar of peanut butter
- 1 large can of juice (4 pack)
- Instant coffee/tea/powdered drinks
- Powdered or boxed milk
- \* If you choose to use your own storage containers, choose two-liter plastic soft drink bottles — not plastic jugs or cardboard containers that have had milk or juice in them.

Sanitize the bottles by adding a solution of one teaspoon of non-scented liquid chlorine bleach to a quart of water. Swish the sanitizing solution in the bottle so that it touches all surfaces. After sanitizing the bottle, thoroughly rinse out the sanitizing solution with clean water.

Fill the bottle to the top with regular tap water. If needed, add two drops of • Contact lens solution non-scented bleach to the water. Tightly • Extra pair of glasses close the container with the original cap. Be careful not to contaminate the cap by touching the inside with your fingers. Place a date on the outside of the bottle — replace every six months.

#### **Storage:**

- Large plastic zip-lock bags
- Plastic wrap
- Aluminum foil
- Assorted plastic containers with lids
- Heavy duty garbage bags
- Waterproof portable container with lid Petroleum jelly (to store disaster supplies)

#### **Other Supplies:**

- Paper plates
- Plastic or paper cups
- Plastic eating utensils
- Tissues
- 2 rolls of paper towels

#### **Your Property:**

Before hurricane season, make a complete inventory of your valuables and personal property. Take a photo inventory and mail a copy to your out-of-town contact. This will be very important should you need to make an insurance claim.

Be sure you put all your important papers together in a waterproof bag or plastic container: Photocopies of credit cards, insurance and Social Security cards. Don't forget your insurance properties and other documents, such as birth and marriage certificates, three years of your IRS returns, mortgage, and wills, to name a few.

#### **Other Disaster Supplies:**

- · Battery powered lantern
- Battery powered radio
- Flashlight(s)

- Extra batteries (correct sizes)
- Extra flashlight bulbs Portable camp stove or grill — *do not*
- use inside Fuel for stove and grill
- Video or disposable camera
- Fire extinguisher know where it is in your building
- Extra change of clothes

#### **Special Needs Shelter:**

The county special needs shelter only accepts residents with a physical condition requiring medical or nursing care.

- Need nursing assistance with medications or medical care assistance
- Monitoring vital signs or medical condition or activities of daily living, but do not require hospitalization
- Need constant electrical power for medical equipment

Pre-registration is required for individuals needing to use the special needs shelter. **Have Patience** 

Damage after a hurricane is unpredictable. It can take several days — this is why you need supplies for at least five days, preferable to have 7-10 days of supplies. In some cases, it can take several days to restore power, phone, water and cable television. You should have a landline phone — cell and portable phones may not work.

Prepare. Plan ahead.

Ask your neighbor from upstairs to join you and keep you company. Don't forget your out-of-state contact.

#### Accolades for 63

Just my two cents regarding the channel 63 change to listing all the Village events in alphabetical order about every 20 minutes. I've found this very helpful. Now I can get the up-to-date information I am looking for at almost any time and within only a few minutes. Thank you to our hard-working Ed Black and all those who assist him.

#### Free at Last? You Think.

Our great emancipator David Israel has now become our great Dictator.

At the UCO Reporter, his staff of disciples is denying people from expressing themselves openly by not printing articles they believe may be inappropriate.

Whatever happened to Mr. Israel's promise of **freedom of speech?** Is that freedom just for him? It appears that only he, like many Dictators, have the right to say whatever they want. You, my dear readers, had better keep your mouth shut, lest Mr. Israel shuts it for you.

#### Olga Wolkenstein **Credit Card Scam**

I got a long, forwarded email which stated:

You get a phone call: "This is your credit card company calling to confirm that an item charged on your card is not yours."

They ask for the three digit number on the back of your card (after other discussion). Do **not** give it to them. This is what they need to make use of your card.

unit owners who consent to the amendment and unit owners who acquire their units after the effective date of that amendment.

Creates s.718.110(14), F.S. — Allows association to designate limited common elements by amendment, so long as the building component is designed for use by specific owners. Ex., In a building that has relatively few central air conditioning units, an amendment can make the cost of the maintenance thereof, a limited common expense as opposed to a common expense to be shared by all unit owners.

#### Official Records — s.718.111(12), F.S.

- Individual director liability for failure to maintain or destruction of official records is limited to cases where there is no intent to harm the Association or one or more of its members.
- Association not liable for unit owner misuse of information obtained from official records.
- Exempts unit owners from personnel records and access to E-mail addresses, telephone numbers, emergency contact information, Social Security numbers other than the addresses to send notices

#### Insurance - s.718.111(11), F.S.

- HO-6 (Unit Owner) Insurance can no longer be force-placed by Association. If unit owner fails to obtain insurance for any portions of a unit which he is responsible to repair, replace, etc., the cost of reconstruction work undertaken by the Association is chargeable to the unit owner and enforceable as an assessment pursuant to s.718.116, F.S.
- A condominium unit owner's policy must conform to the requirements of s.627.714 (not yet written into Florida Statute).
- The unit owner is responsible for the costs of repair or replacement of any portion of the condominium not paid by insurance proceeds — if such damage is caused by intentional conduct, negligence, or failure to comply with the terms of the declaration or rules of the Association, by a unit owner, the members of his or her family, unit occupants, tenants, guests, or invitees, without subrogation rights of the insurer (includes costs of repair or replacement to other portions of condo property and real and personal property of other unit owners). All casualties are required to be timely filed and reported to the association.

#### Board Eligibility — Amending s.718.112(2)(d), F.S.

- Co-owners in condominiums with more than ten units cannot serve together unless they own more than one unit or there are not enough volunteers to fill all slots. Does not apply to timeshare condominiums.
- Requires directors to supply association with new certification form or take a state-approved education class. Directors are suspended until they comply.

#### Collections and Foreclosures — Amending s.718.116

- Changes mortgagee liability cap from 6 months to 12 months after acquisition of title by foreclosure (or deed in lieu) but retains 1% cap.
- Association may demand a tenant pay rent to the association to satisfy delinquency for that condominium unit with written notice to the unit owner. Landlord/owner must provide tenant with credit for any amounts paid to association. Association can evict tenant that fails to comply.
- KEEP IN MIND THAT BANKS AND OTHER LENDING INSTITUTIONS ARE CONTINUING TO USE "STALLING TACTICS" TO DELAY FORECLOSURES AND ACQUIRING TITLE TO PROPERTIES!

#### Enforcement Mechanism — Amending s.718.303, F.S.

- Allows suspension of use rights if owner is more than 90 days past due.
- Allows association to suspend voting rights after 90 days of non-payment.

#### Insurance — Creates 627.714, F.S; Amends s.718.111(11), F.S.

- All HO-6 policies issued or renewed after July 1, 2010, to include at least \$2,000 in property loss assessment coverage with deductible of \$250 per property loss.
- References to "hazard" insurance and "casualty" insurance are changed to "property" insurance.
- Master insurance policy must be based on the "replacement cost" of the property to be insured, which must be determined at least once every 36 months.
- Changes requirements for notice of board meeting to set deductible (still requires 14 days
- Removes language regarding insurance of "improvements" that benefit fewer than all the owners
- Eliminates the requirement for owners to provide proof of hazard and liability insurance to the association and the association's right to "force place" insurance.
- Eliminates requirement that association must be an additional named insured and loss payee on all HO-6 casualty insurance policies issued to unit owners in the condominium.

#### Financial Reporting Requirements – s.718.111(13), F.S.

- Associations that operate fewer than 75 units, regardless of the association's annual revenues, shall prepare a report of cash receipts and expenditures instead of financial statements (currently applicable to associations of fewer than 50 units).
- DBPR to adopt rules including standards for presenting a summary of association reserves and a good faith estimate of the annual amount of money required for the association to fully fund reserves for each reserve item based on a straight-line accounting method. This disclosure is not applicable to reserves funded via the pooling method.  $\square$

#### Know Your Limit

The posted speed limit in Century Village is 25 miles per hour. Observe it and drive carefully.

FIVE HUNDRED DOL-LARS! In most casualty insurance policies, that's the deductible you must pay on a claim for damages to your condo. Add to this: damaged relationships with your neighbors; displacement from living quarters during renovations; and the loss of irreplaceable photos, clothing and furniture. These are hardships you can avoid in most cases by taking some inexpensive, proactive, preventive maintenance

"If it ain't broke, don't fix it" is not the best advice. The fixes proposed in last month's Reporter will pay for themselves many times over. Two thirds of the earth may be covered with water, but your condo unit and your neighbor's do not have to be!

We are now into the rainy **season.** There are several tasks that should have been undertaken by your association's management company and/or a hired professional. Among them are: trimming and pruning palm and deciduous trees and large shrubs; and checking gutters, downspouts and drainpipes for proper functioning. This should include cleaning the debris from gutters to provide for optimal water discharge during heavy rains.

This is the time to have a roofer inspect your roof to secure (on sloped roofs) loose roofing shingles and metal drip edges, and (on flat roofs) seams, pitch pockets and loose parts or exposed wiring on air-conditioning units. If your buildings were painted this year using heavy equipment such as power lifts and booms, inspect the 4 to 6-inch diameter black corrugated drainpipes connected to the downspouts. These

pipes, which carry the runoff into the lakes, other bodies of water and storm drains may have become crushed while under the weight of the rolling equipment — thus impeding the flow of runoff.

Association officers should check the units of snowbirds to ensure that the water supply to their units is turned off, thereby lessening the possibility of water damage. It is recommended also that associations include in their bylaws a ruling that any unit vacant longer than two weeks must be inspected at least every ten days for water, mold or mildew damage. Failure within 14 days to report such damage could be viewed by the insurance carrier as negligence, and the costs for repairs have to be borne by the unit owner or association.

There are many individuals who, for a fee of five dollars per week, will inspect your condo unit and notify you of any problem. If, for example, you're away for six months (25 weeks), the cost would be only \$125 — a small sum for the assurance that you have been proactive in observing and correcting situations before they become catastrophic.

**The Insurance Committee** is working with the Maintenance Committee to obtain for the Village the best insurance coverage for the fairest price. However, without the cooperation of association officers, aided by willing and cooperating unit owners, our best efforts cannot be brought to fruition. We can advise, but you must implement the lowcost steps to keep insurance costs down.

**Investigations Louise Gerson** 

Sale prices are slowly going up. In May we had 51 sales, 25 rentals, and 10 requests for occupants, for a total of 86 transactions. We also gave out Certificates of Approval for Rental and Occupant extensions.

When an investigation is done for someone buying an apartment, the association should have a board meeting to go over the information. You should be aware of bad financial debt and/or criminal reports. If you decide to reject the applicant, please come into our office with the envelope and a letter from your association stating your reasons. We will forward it to our attorney for his opinion. "If he agrees with your decision, you can then reject that person." If there are any legal problems, our attorney

#### will represent you.

Our investigation company is very good at reporting bad credit and criminal records. However, if someone has done something of a criminal nature and has never been arrested for doing it, then that person has **no** criminal record from the police or court. You can't blame the reporting company or us if someone is "beating the system"! If you see someone committing a crime, then you should call the sheriff and report the person immediately. Don't tell your president or someone else to do it for you. The complaint must come from the person witnessing it.

"We, at Investigations, will read and interpret your investigation report, but it is up to your association to decide what to do." □

#### Maintenance Continued from Page 7

NOW IN THE HURRICANE SEASON, A WORD OF CAUTION: Should a power outage occur, flip the airconditioning circuit breaker to the OFF position. Why? Because when power is being restored, if many occupants have their air-conditioning set to ON, the sudden surge of electricity to power up the air-conditioning units can overheat and literally melt the building wiring. There may then be a significant delay in restoring power, because your electrical contractor is busy elsewhere restoring service to other customers.

After electrical service has been restored, watch channel 63 for information regarding aid from CERT, boil-water notices, and resumption-ofdrinking-tap-water notices. In general, follow the guidelines that appeared in the June UCO Reporter.

There is no "free lunch." Work together, stay safe, and watch your money.

#### **Cable Converter Box Return Safe**

For the convenience of our unit owners, Comcast has placed a large silver colored box across the parking area in front of the UCO office.

The purpose of this box is to save our unit owners the cost of a technician visit in case you must return your Cable Converter Box.

Why might you have to return your Converter? Perhaps you have sold your unit and need to return the box which you signed for, or perhaps you are a seasonal renter, and do not wish to leave the Converter in the unit over the summer.

Simply bring your Converter to the safe, wrap it in the bubble wrap provided and drop it in.

If the converter box return safe is not used, Comcast will remove it. Then in order to return a converter. vou will have to call a Technician which will cost up to \$39.00 or you will have to take it to 1401 Northpoint Parkway, to return it in person.

#### Health Michael Rayber

#### Let's Remember Basic First Aid

Most times the best thing to do is nothing. Chest compressions are helpful in Cardiac Arrest. Stopping bleeding is also helpful. The rest should be left to the professionals.

On Thursday, March 11, there was a fall in the UCO office. Everyone did what concerned friends would normally do, that is, help her to get up. The proper and best thing to do is just make her comfortable and not move her. A standard piece of first aid equipment to have there would be a blanket. People on the floor get cold. The standard for response time for the Fire Department is six minutes. Moving a person that has fallen can cause severe injuries. If there is back or neck pain, moving can cause a spine injury. Most common for us are broken hips. Moving can cause severe internal bleeding. This is also true for fractures in the leg. A properly trained ambulance crew would have splinted the legs together before moving her.

Falls are the biggest risk we face to our health.

You may think that heart attacks or strokes are the big problem. You would be wrong. You are much more likely to face a nursing home or even death from a fall.

#### **Falls Among Older Adults:**

How big is the problem?

More than one third of adults 65 and older fall each year in the United States.

Among older adults, falls are the leading cause of injury deaths. They are also the most common cause of nonfatal injuries and hospital admissions for trauma.

What outcomes are linked to hip fractures?

About one out of five hip fracture patients dies within a year of their injury.

Most patients with hip fractures are hospitalized for about one week.

Up to one in four adults who lived independently before their hip fracture have to stay in a nursing home for at least a year after their injury.

Statistics are from the CDC.  $\square$

In the 1980s, my husband was recuperating from a heart attack. His one wish was to visit Florida before he died. I promised him that as soon as he received the OK from the doctor that we would go. It wasn't too long before I was making plans for our first vacation in Florida.

I shared our plans with the girls at work and they gave me tips on where to dine and sight-see, etc. One girl suggested that if I was enjoying the sun at the pool to order a delicious drink, a Singapore Sling. Neither my husband, nor I, drank alcoholic beverages, but one day while he napped, I ordered a Singapore Sling. It was delicious, but I got so drunk from it, that I had to sleep off the after effects while hiding the fact from my husband.

Last week, I came across a very interesting ad in one of my magazines. I hope you will enjoy it as much as I did.

"She asked the bartender for a cocktail. He made history instead. It was a sweltering tropical noon in the early 1900s. The wicker fans at the bar tried mightily, but failed to dispel the heat. While the men imbibed various spirits, the ladies had to be content with tamer beverages. One brave soul, however, had other ideas — shared by the bartender. With a wicked gleam in his eye, he mixed her a cocktail of gin, cherry brandy, cointreau and lime juice, masking its potency with a splash of grenadine. The pink concoction was received with much glee. Nowadays, this legendary drink is available for the asking."

#### A Message from the Pro-Active Committee for Century Village

By the time you read this, the Pro-Active Committee Workshop would have been held on Thursday, June 10<sup>th</sup> in the Clubhouse. The purpose of the Workshop was to present new developments about the closed golf course and to discuss plans to continue our opposition to any housing development on that property and to seek volunteers to work on various sub-committees.

If you were unable to attend that Workshop, it is not too late to inform us of your desire to volunteer to assist the Pro-Active Committee in our opposition, which actually benefits all the residents of Century Village and all the surrounding community.

In the next edition of the *UCO Reporter*, I hope to give you the results of the Workshop, but at this time, I am asking you to join our volunteers by contacting The Pro-Active Committee by calling 561-688-1351 and giving your name, telephone number and e-mail address, when applicable, and your desire to assist on a committee.

Thank you for your attention to this. Remember, all the work that we do to oppose any housing development on the golf course property is to protect the life style of Century Village residents.

The *Parade* section of the Sunday *Palm Beach Post* touted me onto *But I Trusted You* by the number one writer of true crime files, Ann Rule. This is the 14<sup>th</sup> book in her series. Her background in police work shows by the type of details she shares. Rule is a former Seattle cop turned writer. She is now in her seventies and still going strong.

These true stories tell themselves. The people in this book put their trust in others who went to the maximum to destroy and kill. The title story gives some insight into a couple whose marriage ended in murder. They had married after a whirlwind romance but the marriage disintegrated almost as soon as it started. The husband was charismatic and fun loving but the wife was a secretive schemer who cared about nobody but herself. The murder and events afterward are covered largely through Rule's ever-present law enforcement sources, her observations at trial and the official record. All together they provide a cogent retelling of the crime.

There are six other stories that make up more than sixty percent of the book. *Death in Paradise* is frustrating because there is no credible theory to explain the events. But *Monohan's Last Date* is a crackerjack tale of swingers in the mid-1970s. The last story, *Dark Forest, Deep Danger*, is the best of the bunch.

I like true crime stories and most of the time I have not heard about the cases Rule puts in her books. Keeping some of the stories short allows me to easily stop and start her books when I am busy without having to remember every character I have met, which sometimes happens with novels I am reading. This is business as usual for Ann Rule. Her books tend to be quick reads with interesting cases, and this book was no exception.

#### Stamps in the News **Syd Kronish**

Ever since we were little kids, we have been loyal, fond followers of our loveable cartoon characters featured in the "Sunday Funnies" section of our local papers — and we continue to do so today.

Now they are jumping off those pages to our postage stamps!

The U.S. Postal Service is honoring five of our most beloved comic strips — Archie, Beetle Bailey, Dennis the Menace, Garfield, and Calvin and Hobbes. The strips, as well as their characters, may have changed over the years, yet each remains an enduring classic for its viewers. The special set of 44¢ stamps will be issued July 16.

Let's look at this group separately to see their progress over the years.

**Archie** offers an individual portrait of American young people in the name of 17 year old Archie Andrews. A departure from the comic-book superheroes that gained popularity during the 1940s, Archie and his friends first appeared in December 1941.

Archie became a syndicated daily newspaper strip in 1946, and, of course in the Sunday funnies.

Beetle Bailey is a military strip with universal appeal with the main location being the grounds of Camp Swampy, a fictional Army base. Possibly the laziest man in the Army,

Inside, you will see something called "Community Emergency Response Team" or CERT; this is a group of volunteers who help in time of disaster. Pvt. Beetle Bailey was an expert at sleeping and avoiding work. His chronic foibles antagonized Sgt. Orvile P. Snorkel.

Beetle Bailey debuted as a newspaper comic strip in September 1950. Cartoonist Mort Walker served four years as an Intelligence Officer with the U.S. Army during World War II.

Dennis the Menace is a mischievous boy with unruly blond hair and a freckled face. The good-hearted Dennis tested the patience of his loving parents.

Initially a troublemaker, Dennis mellowed over the years and today his antics are more innocent than aggressive.

**Garfield** is an orange tabby cat who hates Mondays and loves lasagna and TV. Lazy and self-centered, Garfield lives with Jon Arbuckle, an awkward bachelor with terrible taste in clothes and no luck with women.

Lazy Garfield began his run in June 1978 and still garners lots of laughs.

Calvin and Hobbes explore the rich fantasy of life: Calvin, a precocious six year old boy, and his tiger pal Hobbes.

Each of the Sunday funny characters remain imbedded in the hearts of all who read the comics.

Several years ago, I created small bookmarks as gifts for the volunteers, and it now occurs to me that some of you may have been overlooked accidentally. If you feel you are among the missing, please leave a message with Noreen or Marge at the office across the hall. I'll do my best to make sure everyone is treated equally.

### Walking and Learning with Our Police and Firemen

By Phyllis Frishberg

I love to be a volunteer. Some of my volunteer experiences have been escorting school children on walks at Okaheelee Nature Center, ushering at the Cuillo, Lake Worth Playhouse, and Palm Beach Drama Works, Seniors vs. Crime, assisting at Mark Pafford's office.

This season I have become involved in a 13-week Citizen Police and Fire Academy course, headed by Officer K.T. Carsillo, Crime Prevention Officer of the West Palm Beach Police Dept. The purpose of the Academy is to educate the public in the operations of the police department and firerescue. This connects to my CERT training and makes me more useful in the Village.

The Ride — Included in the course is a four-hour police ride-along, which I did on Saturday, April 10. What an experience!! At 7 pm, Officer Wendy Samaroo introduced herself to me, we settled ourselves in her vehicle and she explained the computer, the radio, the GPS, her working area — and very soon she received a call saying that the traffic light on Okeechobee

and Spencer was not working.

She asked me to assist her, gave me a yellow jacket to wear, **Police** written across the back, and we both directed traffic at that intersection...of course she did the major part of it! Could you imagine the look on the faces of the drivers seeing this senior citizen directing traffic!

The traffic lights were eventually fixed and Officer Samaroo then proceeded to show me her area, when a call came in...a man lying on the floor of his house with a gun close to him. Officer Samaroo had me stay in the car...many police cars arrived and the fire department as well. Eventually she came back to me and said I could come out of the car... the man had shot and killed himself, so it was safe for me to be outside the vehicle, while she attended to business.

This is the 25<sup>th</sup> year that the Academy has been in existence. It is intended to educate those who attend police and fire-rescue operations. The classes are held at the Police Station on Clematis Street, 13 weeks of class and then graduation on May 10. For info, email ktucker@wpb.org □

From the Desk of State Senator Dave Aronberg

#### Legislative Recap

In recent years, the greatest challenge facing the state legislature has been the budget. Indeed, the only constitutional requirement during each year's legislative session (which runs from March to May) is to pass a balanced budget. That requirement was met, although the legislature relied on federal stimulus dollars and trust fund raids to do it. The \$70 billion state budget included a \$111 million increase in funding to K-12 education, which comes out to a small increase of \$1.22 per-student. After years of school funding cuts, education spending is still well below 2006-2007 levels.

The legislature balanced the budget partly on a \$506.9 million raid from state trust funds, especially from the affordable housing and transportation trust funds. Some of these trust fund raids have since been spared because of

the Governor's recent vetoes — although how the budget gap will now be filled is still an open question — and the impact of these raids on existing projects is unknown. I opposed these trust fund raids as a breach of contract between politicians and taxpayers who are promised that their taxes and user fees will go into a specific fund, only to see them diverted to other parts of the budget.

On a more positive note, I am proud that several of my bills from this session were enacted into law. Among them:

• SB 502 — Special Investigators — This bill allows prosecutors the flexibility to use special investigators from other agencies to help root out crime in our communities. Especially important in tough budget times, this bill will allow State Attorneys to guide and coordinate important in-

vestigative matters without having to bear the financial burden of employing the investigators full-time on a permanent basis.

- SB 814 Lifeline This bill allows more cell phone companies to add Lifeline services. Lifeline is a public assistance program that reduces phone bills for people at or below 150 percent of the federal poverty level.
- SB 870 Statutes of Limitation — This important legislation will help keep child molesters off our streets by removing the statute of limitations for sex crimes against children under the age of 16. Current law forces children who have been victimized to report these crimes within three years after they turn 18. Studies have shown that it can take 15 years (and often longer) for victims to come forward, as they are often silenced into shame and humiliation.
- SB 874 Substantial Assistance This bill allows prosecutors broader authority to ask a court for a reduced sentence for a cooperating defendant. This will help our State Attorneys to successfully

prosecute the ring-leaders and "big fish" who direct major crimes yet escape punishment.

- SB 1058 School Personnel — This bill protects bus drivers and other educational personnel from dangerous students by notifying them when a student is charged with a felony. This is vital information for any professional who supervises children and will protect fellow students as well.
- SB 1284 Sex Offenders — This bill creates 300 feet "safety zones" to keep sex offenders and predators away from places where children congregate. Sex offenders will also be restricted from wearing certain holiday costumes and giving out candy on Halloween.
- SB 1980 Ethics This was the only ethics bill to pass in the legislative session. This allows counties to toughen the penalties for public corruption at the local level.

I'm also pleased to have co-sponsored a successful bill to help keep "pill mills" out of our communities. We have lost too many young people from prescription drug overdoses, and this bill will ensure that Florida will no longer be the oxycodone supplier for the rest of the country.

Finally, the most contentious bill this session was Senate Bill 6. After receiving an overwhelming amount of phone calls and e-mails, Governor Crist made the right decision and vetoed the bill. I was outspoken in my opposition to this bill, and you can watch my Senate floor speech at http://www.youtube.com/ davearonberg

#### The Hand Salute to Our Flag

U.S. Senator Jim Inhofe (R-Okla) introduced a bill (S.1877) that clarifies current law (U.S. Code Title 4, Chapter 1) that now states that veterans, and service personnel not in uniform, can now salute the flag as if they were not in uniform and uncapped.

The salute is a form of honor and respect representing pride in one's military service, and these service members continue representing the military service even when out of uniform.

It is a way to honor the 25 million veterans in the United States who have served in the military and remain as role models to all other citizens.

Those who are currently serving in the military and the hundreds of thousands of veterans have earned this right, and their recognition will be an inspiration to others both

now and future generations.

It is now requested that all that fit into these categories respond proudly at meetings, parades, ball games, and sporting events when the national anthem is played or sung, and also when reciting the pledge of allegiance.

This bill was passed by a unanimous vote of the Senate.

#### **Preparing for Hurricane Season**

#### Now

#### **By Jerry Karpf**

To help everyone to prepare for the hurricane season I have made a list of suggestions for Associations and unit owners to follow, making it simpler to prepare for the upcoming Hurricane season. I know it has been over five years without any hurricanes, but you never know!

So, isn't it better to be prepared than to be caught?

All you have to do is remember "Wilma" and how much damage it caused to Century Village.

So don't wait. Start preparing now.

#### **List of Things Association** Officers Should Do Before the Start of a Hurricane:

- Remove all recycle containers to a safe place.
- Remove all items such as pool chairs, flower pots or any loose items around your area.
- Take pictures of all the sides of buildings of the Association including the roof and grounds.
- Make a list of everyone who will be staying through the hurricane.
- If you use AT&T, it would

be wise to get a Princess type land line telephone. They are the only type of phone that will work if we lose electric power. Comcast service will only last for eight hours by backup battery service.

- Lock all doors to laundry rooms and utility rooms so doors will not swing open in the storm.
- Place all Association docu-

- ments and insurance policies in a plastic bag and keep in a safe dry place.
- Make up a list of all the tradesmen you would have to contact for emergency services, such as getting a tarp on the Association's roof or someone to board up the windows.
- Have everyone move their cars away from trees or light poles.
- Advise everyone to stock

- ASAP (Before the start of a hurricane).
- This is for the snowbirds: Shut off all your water before going back home, and make sure you shut down power to water heater, but leave on power to air conditioner units.

**List of Things Unit Owners** Should Do Before a **Hurricane Starts:** 

- up on hurricane supplies Get enough extra medication to keep you supplied for at least two weeks.
  - Place all important papers (insurance policies, wills, passports, bank statements, etc.) in plastic bags.
  - Fill up your car with gas in the event you may have to leave the area.
  - Before the hurricane starts, make sure that all windows Continued on Page 27

The Community Relations Committee — Dorothy Brier, Kathy Guarnagia, Phyllis Frishberg, Jackie Karlan, Maria Levy, Eileen Pearlman, Myrna Schecter, Lori Torres and myself — all recently met to continue plans and preparations for this year's Dessert Buffet honoring our Century Village Centenarians.

This year's festivities will take place at 1:00 pm, Thursday, October 28, in the Clubhouse Party Room.

Foremost of what was discussed was the fact that Phyllis Frishberg is working closely with State Representative Mark Pafford's office relative to inviting elected public officials and personal letters or gifts to our Centenarians. Eileen Pearlman is working with Elections Supervisor Susan Bucher to identify and verify the age of our Centenarians by voting records.

Letters to our 27 local supporters, who have supported our efforts in the past and thanking them for their support, are being mailed to them. A letter to possible new supporters is being prepared and will be mailed.

Myrna Schecter and Jackie Karlan are responsible for the purchase of all goods necessary to make the party

# **Annuity Owners Could Pay Up To 40% to the IRS in Taxes!**

Many annuity owners are positioned to lose a significant portion of their annuity's value to taxes, and most are not even aware of the problem. **The IRS is not required to notify annuity owners about an exemption to the tax code** that could save thousands of dollars in income and estate taxes.

A complimentary booklet is available that shows current annuity owners how to **avoid mistakes and possibly save thousands!** This complimentary booklet creates an awareness around the most costly annuity owner mistakes and provides tips and strategies to help you make the most of your hard-earned assets.

Call 888-221-8525 today to get your no-cost, no-obligation copy of the 16-page "Guide to Avoiding Common Annuity Mistakes" and learn how to potentially:

- Avoid paying unnecessary taxes
- Increase your retirement income by properly handling your annuity
- Avoid mistakes that could cost you or your beneficiaries thousands of dollars

#### Preparing for Hurricane Continued from Page 17 How to Protect

and doors are locked.

- Fill tub with water after you have cleaned it out with a chorine cleaner, use a flat stopper so as not to lose any water in the tub. This water could be used to flush the toilet and wash dishes if you lose water service.
- Stock up on water, at least one gallon per day, per person. You should have enough water to last a week in the event our water supply becomes contaminated or is shutdown. Have on hand canned foods such as tuna fish, chicken, Spam, roast beef, snack foods, etc.
- If possible, get a small propane stove to cook food and to boil water.
- Get a flashlight and extra batteries for light.
- Get a battery operated radio.
- Pick up some of the door hangers at UCO to notify CERT that you may need help when the hurricane ends.

#### List of Things Association Presidents and Boards Should Do After the Hurricane Passes:

- Check to see if everyone that stayed thru the hurricane is OK.
- Check outside of building for any damages.
- Check to see if the roof of your building was damaged.
- Check all units for any water stains, floods, or broken windows.
- Make only temporary repairs such as covering a window, putting a tarp on your roof, etc.
- Notify your insurance company of any damage to your Association.
- Have unit owners call their insurance companies if they have any hurricane damage.
- After you are told how much the insurance company is willing to pay to make repairs and you find it will cost more to make the necessary repairs, it may be prudent to contact a public adjuster.

#### Recommendations for Unit Owners After a Hurricane is Over:

- Do not drive your car for a few days after a hurricane because of flooding. You will not see any submerged objects.
- Avoid walking outside your unit until all falling objects such as downed trees, branches and other debris are removed.
- When you do have to go out of your apartment, watch for swimming snakes, rats, and other animals that have been displaced because of flooding. □

#### How to Protect Yourself: Credit Card Fraud

According to the U.S. Department of Homeland Security, the cost of credit card fraud may be as high as \$500 million a year. Consumer pay for the fraud through higher finance charges, annual fees and increased costs for law enforcement investigations and prosecutions. To protect yourself against credit card fraud, consider the following:

#### Protect your bills and credit cards

Unscrupulous scam artists often raid mailboxes or use "phishing" scams online to gather credit card account numbers and other financial information. If your cards or bills are late, contact your

credit card company. Sign all credit cards as soon as they arrive. Keep a record of your credit card numbers in a secure place and include in that record the expiration date, phone number and address of the card issuer. Check your cards to ensure none are missing. Always get your credit card back promptly from salesclerks.

#### Guard your credit card number

Do not give your credit card number out over the phone or online unless you initiated the contact or you have verified the website you are on belongs to the company with which you believe you are dealing. Memorize your PIN number and do not keep it with your credit card.

Merchants cannot require you to show your credit

#### card for identification when paying by check

It is a violation of Florida law to require a consumer to produce a credit card number or expiration date before payment by check. However, a consumer can be required to show that they have a valid credit card. The merchant can note the type of card (Visa, Master Card, etc.) and the name of the issuing bank, but nothing else.

#### Safety tips when using your credit card

Destroy carbons and voided receipts immediately. Check your bill against receipts that have been kept in a secure place. If you are not using a credit card, destroy it immediately. When on a trip, carry the name of the issuer, account number and the toll-free number of

the issuer in a secure place. Report stolen and lost cards immediately. Note the date, time and person to whom you reported that your card was lost or stolen.

#### Reporting losses and fraud

If you lose your credit cards or if you realize they've been stolen, immediately call the issuer(s). Many companies have toll-free numbers and 24hour service to deal with such emergencies. By law, once you report the loss or theft, you have no further responsibility for unauthorized charges. In any event, your maximum liability under federal law is \$50 per card. If you suspect fraud, you may be asked to sign a statement under oath that you did not make the purchase(s) in question.

#### **Easy Walking** on Boardwalks Where You Can See the Birds **By Lanny Howe**

Would you like to go on a nice outing where you can see a variety of wading birds, an alligator or two, turtles and maybe more? Where the walking is easy because it's on the boardwalk all the way? Where you can take a friend or relative in a wheelchair? Where there are railings you can lean against comfortably while viewing the wildlife, and shaded stopping areas with benches every so often? And where the admission is **free?** 

You need to visit either Wakodahatchee Wetlands or Green Cay, both in Boynton Beach and about a half hour's drive from here. In both locations they have constructed a wooden boardwalk, about one and a half miles in total length, over an extensive man-made marsh so people can see the wildlife attracted to the area. Photographers and bird lovers flock (no pun intended) to these two preserves. You can walk as little or as much of the boardwalk as you want.

Come armed with a bird book and binoculars if you can. If you can't figure out the difference between a great egret and a snowy egret, chances are someone will come along who can tell you the difference and a whole lot more. It's fun learning at your own pace. And speaking of pace, you walk the boardwalks at your own pace. Stop and lean on the railing as many do, adjust your binoculars, and thumb through your bird guidebook. Watch the anhingas and the great blue herons feeding their young in nests. Catch sight of the beautiful purple gallinule. And see (at Wakodahatchee) the huge alligator, who is "king of the island."

Wakodahatchee is the older of the two preserves and is located on Jog Road a few miles south of Boynton Beach Boulevard, on the left. Watch for the turn. It is marked, but you can miss it. Because it has been in existence longer than Green Cay, Wakodahatchee tends to have more birds; but Green Cay does very well and has an air-conditioned building with animal exhibits (live and stuffed), a lecture room, and a souvenir-book shop. You can also go on guided tours at

Green Cay, including at night. Both facilities have restrooms. To reach Green Cay, follow Jog Road south to Boynton Beach Boulevard, follow this west (right) to Hagen Ranch Road, and follow Hagen Ranch south (left) to Green Cay, which is on the left, a few miles south of Boynton Beach Boulevard. Again, watch for the turn into the preserve. It is marked, but vou can miss it.

There are no places to buy food at either park, but you can pack a lunch or snack and eat at one of the shaded stopping places with benches on the boardwalks or, in the case of Green Cay, on benches outside the nature center building. There is a cold water fountain inside the nature center building at Green Cay, but bring bottled water for drinking along the boardwalk at either park. One word of advice: It can be deceptively hot out on the boardwalk, so think about wearing a wide-brimmed hat and putting on sunscreen, especially during the summer months.

Allow three hours for a leisurely round-trip visit to either park from Century Village. You will enjoy just being outdoors. This is EASY going.  $\square$

#### Shanghai Expo 2010

**By Kurt Weiss** 

The Chinese Government organized a World's Fair in Shanghai under the name Shanghai Expo 2010 and the motto "Better City — Better Life."

The Expo opened Saturday. May 1, and will close on Sunday, October 31.

The U.S. is, of course, represented; however, the previous administration did not budget for it, and it was too late for the incoming one to finance. They, therefore, applied to major corporations to donate, and that in fact made U.S. participation possible in this important event. Together with another 240 countries and various global organizations, our import of Chinese made goods is tremendous and this Expo should help increase our exports to China.

In all, it pays for a world power like the U.S. to participate in events like this, but is has important advantages for a country the size of Israel.

Israel decided in 2009 to participate and budgeted forty million dollars; it turned out as a first rate strategic success. Their exhibition caused great interest in media outlets and large crowds are visiting the Israeli stand waiting in long lines to see Israel's trailblazing technical achievements and learn about Israel's history and culture. The forecast is that over three and one half million will visit Israel's exhibition to see Israel's success story on many levels and be impressed by its achievements, each time a video clip is shown, there is tremendous applause.

The Israeli Government is represented by the Ministry of Welfare and Social Services and Isaac Herzog, son of the late president of Israel.

Herzog was invited to visit the Palestinian stand and

OUR SECURITY CAR.

warmly greeted there. He also visited the Moroccan stand which highlighted items such as mezuzas and Hebrew delicious treats as part of that country's cultural heritage.

He, of course, visited the U.S. Exhibition, where an opening video included a message by President Obama to the Chinese people.

China's Deputy Prime Minister told Herzog that the Chinese and the Jews share ancient cultures and expressed hope that mutual cooperation will increase, specifically in technology, agriculture, welfare and disaster assistance.

Herzog was also warmly greeted at the Beijing University, where he gave a speech.

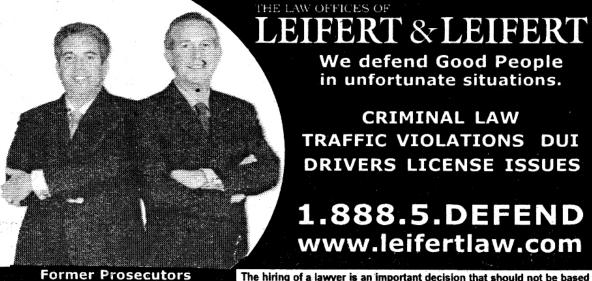

The U.S.'s success is assured as one of China's main business partners but even small countries like Israel can be proud of the impact their exhibit made in Shanghai. □

### Do Not Feed the Peafowl!

Did you know that the male of the peafowl species is called the peacock and the female the peahen? Either way, they're noisy and a nuisance. Feeding them brings unwelcome trouble to Century Village.

# How to tell how old your Hot Water Heater is:

The first four numbers in the serial number tell you its age.

The first two numbers are the month.

The 3rd & 4th numbers are the year of manufacture.

Do not confuse the serial number with the model number.

Ten years is the life expectancy of a Hot Water Heater!

# Elect A Judge For The People!

"We are the only country in the world that allows the People to elect their Judges. Many states, including Florida, give People the right to elect some of their state court Judges.

I am a lawyer who is independent from the local legal establishment and am asking YOU, the People, to decide whether I deserve to be your Judge.

I made the decision that my campaign would not solicit or accept contributions from any attorneys, people or business interests because I believe judicial campaign contributions, especially from attorneys, have gotten out of hand.

Your faith in an independent judicial system is important to me. It is for that reason I decided my campaign will not accept any monetary contributions from attorneys or anyone else.

Hard work, thorough and careful preparation, professional excellence, trust and independence have contributed to the success I have achieved on behalf of my clients. I now want to put these qualities to work for the people of Palm Beach County if I am fortunate enough to earn your vote for the office of Palm Beach County Circuit Court Judge."

Gun Club
George
Franklin

The Century Village Gun Club meets the second Tuesday EVERY month at 7:00 pm in Class Room "B" of the Clubhouse.

Every meeting has a guest speaker. Come listen to great speakers, make new friends view historic and modern fire arms and other weapons. You do not need to own a weapon, just have the interest. Some of the guest speakers have included Federal Agents, Sheriff Deputies, Police Chiefs, Fire Arms Instructors, and Gun Smiths.

We also have enjoyed a Club Shoot; Gator Guns and Archery Center has given the members a "Club Rate" to shoot — \$4.50 all day!! If you do not own a fire arm, they will rent you one.

You may also take the State of Florida Concealed Weapons Class there on Thursday nights if you so desire to carry a weapon. Many of our members have done so already. Want to purchase a fire arm? We can help; the club has a Federal Fire Arms Licensed Dealer

ready to help you and make your purchase go smoothly.

Every meeting has a currently employed state certified Police Officer fire arms instructor in attendance. All weapons brought to meetings are checked for safety. Have weapons for sale? We can help you with that also. We will get you the best possible price for your entire collection or just one piece through our network of dealers.

Come check us out! Any questions, please feel free to call George: 471-9929.

A Report by Pat Izzo on the Out of Country snorkel trip: As anyone who has lived in Florida this past winter can testify to its dismal weather conditions, our snorkel club's activities were sharply curtailed.

We were therefore looking forward to our annual trip and to a warmer climate. Our destination this year was Curacao, which is an island just 35 miles north of South America and to the all inclusive resort called Breezes. Ten people took advantage of this opportunity to

# CHUCK SHAW

A Lifetime of Service to Children and Community

"Chuck Shaw is a wonderful candidate who cares passionately about education."

- Paulette Burdick, Palm Beach County School Board member

"He is always reasonable, responsible and respectful. He always does the right thing."

- Richard Radcliffe,
Deputy Mayor Greenacres

I'm Chuck Shaw and for more than 30 years I have been a **teacher**, **principal** and **administrator**.

After 18 years as a **Greenacres city councilman**, I will bring experience in **governing and education** to the Palm Beach County School Board.

With your help we can ensure that the school board is making children its first priority.

We can make sure that **good teachers are fairly paid** and poor teachers are replaced.

We can demand that our **schools are safe** for teachers and children.

And I will ensure that the **elected School Board** sets policy not administrators.

Let's make Palm Beach County the best school district in Florida and one of the **best in the nation.**

#### **Caldwell Theater Summer Schedule**

The last A&E column listing the new season's incoming plays left out the Caldwell Theatre's summer season, which came in too late to make the Reporter's deadline. Here are the two plays at Caldwell in Boca Raton this summer:

From July 7 through August 1, visit Secret Order. Bob Clyman's comedy concerns a young researcher who thinks he has found a cure for cancer. A New York research lab, headed by a renowned administrator, recruits him. Says the publicist, "The play hinges on the accuracy of the research and the moral dilemma of who owns the truth to any story."

Gordon McConnell stars.

From August 11 through September 5, see *The Comfort* of Darkness. This is "a slightly fictionalized version" of a romance involving Dr. Anton Mesmer (from whom we get the term *mesmerized*) and one of his patients, Maria Theresa von Paradis, a young blind pianist. Dr. Mesmer, who sometimes used hypnosis in an effort to cure, attempts to rid the artist of her blindness. In this world premiere production written by Joel Gross, Broadway star Robert Cuccioli portrays the good Doctor M.

#### Terrorists, Part One: They Don't **Understand Us By Irv Rikon**

One day in 1970, I was in Kandahar, Afghanistan, playing a game of chess with a Kuwaiti gentleman as several onlookers watched. I had come overland by bus from Peshawar, Pakistan, across the Khyber Pass to Kabul, Afghanistan's capital city, then driven on to Kandahar and later would cross the Afghan border into Iran. The bus was full and remained so throughout my journey. All the passengers but myself were Near Eastern Muslims: Afghans, Iranians, Jordanians, Palestinians. Only two spoke English, the aforementioned Kuwaiti and an Afghan university student, who sat beside me and translated for me as I was peppered by people whose natural curiosity impelled them to ask who I was, where I was going, what my country was like, and so on. In general, all these people took me under wing, mostly treating me as a guest, insisting that I stay with them in their hotel of choice and eating with them where they ate. Our chess game was played in the restaurant kitchen of the hotel in which we stayed in Kandahar.

One observer was a restaurant waiter, who spoke English and clearly did not like me, probably because I was an American. During the

game, as he and I were politely speaking, he turned to his Swedish-made refrigeratorfreezer. "This is brand new. We just got it." He sneered: "Does your country have anything like this?" "Yes, we do," I told him, but I was not sure he believed me. And I thought to myself, he doesn't understand us, anything about us.

The subject in the kitchen changed, but another incident aboard the bus reinforced my thought. Americans had just made their first moon landing. It was a hot topic on the bus, but all who spoke about it expressed doubt that it had ever happened. The consensus: We had sent an airplane aloft and photographed the landing as it took place somewhere in the American desert. How could I convince them the story our government was telling the world was fact?

A light-bulb went off in my head. "Isn't it true," I asked, "that the Prophet Mohammed was illiterate?" "Yes," came the answer. "Isn't it true that he wrote the Koran?" "Yes." "Isn't it also true that he ascended into Heaven and returned to earth." "Yes!" "So," I continued, "it's also true that a very well educated, highly disciplined and motivated group of Americans flew to the moon and returned!" "I won't translate that last part," the university student said. "They'll kill you!"

#### **Terrorists, Part One** Continued from Page 38

I wasn't trying to be irreverent or disrespectful of the Prophet, whom I actually do respect and admire for the many things he said and accomplished. Mohammed wasn't — isn't — worshipped as God by his followers in the manner Christians worship Jesus Christ. Rather, Mohammed is perceived as the last of the great Prophets, but a man. The point I was hoping to make to this busload of believers was that in America there were likewise believers, men who, working harmoniously together and greatly motivated, had produced a miracle even as Mohammed had done. We are all human. Many are believers. With God's help, we are all capable of performing miracles. Yet that never got translated, and until now I've told this story only to two or three people.

Exactly forty years have passed since my time in Kandahar which, ironically as I write this, our government has announced to the world our armed forces are planning to invade for the reason it's regarded as an Al-Qaeda-Taliban stronghold, the place where the Taliban began.

But the invasion won't turn the tide. Even if we capture the city with a minimum loss of lives on both sides, the terrorists still won't understand us except as their enemy. We can try to rebuild Kandahar and all of Afghanistan, but the Taliban will claim that we are neo-colonialists attempting to re-make the world in our image. They will do this with considerable effect, thanks to the technologies of the modern era, the internet, the cell phone and such. They can easily communicate across the globe and persuade others who incline anyway to feel as they do that we are an occupying army, because to them, we are.

What has failed us is not our military forces, who are doing exactly that which we ask of them under horrific circumstances. Rather, we have failed ourselves for not showing the world the best of what we are, probably because we've largely taken it for granted, forgotten it or not informed our new immigrants of the beauties, wonders and, yes, the truths of this great land we call America.

We do believe in people, as well as in God. We're not a theocracy or a dictatorship. The Preamble to our

Constitution begins with the words, "We, the People." Our Declaration of Independence declares, "We hold these truths to be self-evident, that all Men are created equal, that they are endowed by their Creator with certain unalienable Rights that among these are Life, Liberty and the Pursuit of Happiness."

By contrast, the word "Islam" means "submit." A Muslim is one who submits. It's all right to submit to God: I've no objection to that. But in practice, following World War Two, when Muslim masses gained independence from foreign colonialists, they submitted to dictatorships, oligarchs, charismatic military and theocratic leaders: strong-men all. But then they turned around and blamed us — the West, especially the United States for their problems. We became their scapegoats.

And even when they see something of what we are, they don't understand it. Laura and I just recently were in Sydney, Australia, which at the present time, I regard as the world's most beautiful big city. On the waterfront is a huge park and botanical garden, and the same sign is posted throughout the park: "Please walk on the

grass, smell the flowers, hug the trees, talk to the birds." We did all of that, but how lovely, how democratic, how peopleoriented!

Yet the Sunday edition of Sydney's main newspaper carried the story of a terrorist, born in Australia, the son of Lebanese immigrants, who was planning to blow up an important Sydney building. He was a "home-grown" terrorist, that is to say, one who had been radicalized in Australia. When the authorities, who luckily apprehended him in time to prevent damage, tried to determine the reason behind his thinking, they found that his religious leader had said, "They're killing Muslims." Such thinking and such influences are also behind the would-be American Times Square bomber. "They're killing Muslims."

What they haven't been given to understand by us is that we don't kill Muslims. We seek to destroy evil when and where we perceive it. We fought evil-doers in World War Two, most of whom were Christian in fact. Going back in time, even though some of us we were holders of slaves, others came to see that this was morally wrong, and eventually a civil war was fought — Christian against Christian — over this very issue, a war that resulted in the elimination of slave-trading and slavery, at least in our own country. We invaded Muslim territory only after we were attacked on 9/11/01, a new "Day of Infamy." It's evil that we fight, and not innocent people who are, despite our sincerest wishes and fervent prayers, caught in harm's way, but we've got to make them understand that. Are we perfect? No, definitely not. But most of us strive to be good. And that should be understood.

Coming Next: Terrorists, Part Two: We Don't Understand Them.  $\square$ 

#### Happy 90th to Sam Rosen

Congratulations to Sam Rosen, Commander of JWV Post #520, on his 90<sup>th</sup> birthday.

Sam is a hero of WWII: landing June 6, 1945 (D-Day); and continuing across Europe to victory.

do some extensive snorkeling. There were eight women and two men, and myself being the only male snorkeler. What we lacked in quantity, we made up in quality as the ladies proved to be very active.

The resort was right on the ocean and just off the beach about thirty to fifty yards from shore was a barrier reef. This created a calm lagoon like area for swimming and snorkeling. The reef was abundantly inhabited with many species of marine life with hardly any signs of either soft or hard coral. The ocean side of the reef, however, was a different story. This area could only be reached through an opening on the eastern end. It was profusely inhabited by many varieties of fish with a good spattering of coral of various types. It was paradise for snorkeling starved snorkelers. The ladies were out there every day including the day we arrived and the day we departed. You missed it if you didn't go.

Saturday, May 1 was a snorkel trip to Peanut Island. It's amazing how in just a few years the tropical fish population has soared. We numbered thirteen and thanks to Ron Helms and Joe Llano for all their help. Everyone had a safe and wonderful day.

Our last and important meeting for this season is Friday, May 21 at 10 am in the Clubhouse. For more information, call our President, Rosemary Maude, at 561-684-0116.  $\square$

May was National Stroke Awareness Month. Yes, I know that it is June, but the awareness is important, even if late. Up to 80% of strokes are preventable by taking steps to manage risk factors. Risk factors include high blood pressure (this is manageable with medication and diet), high cholesterol, diabetes, smoking, and excessive alcohol use.

We often have a warning mini-stroke known as a TIA. People often ignore a TIA which passes in a short time, but it is a warning that the big one is coming.

Most strokes can be treated if you recognize what is happening and act fast. Every minute that passes increases the likelihood of brain damage. Look for slurred speech, facial droop or one side weakness.

There is a clot buster drug known as TPA. This can be used on many strokes; however, they will only use it in the first three hours. The stroke has to be witnessed and time noted. Remember, the three hours include time in the hos-

pital while tests and scans are done. These tests do take time.

You must be taken to a primary stroke center. Not every hospital is a primary stroke center; some hospitals will have to first transfer you to one. If you insist on being taken to a hospital because your doctor goes there and it is not a stroke center, this could cost you your life.

The two main primary stroke centers in our area are St Mary's and Wellington Hospital. Both are excellent. Wellington happens to be the largest ER in the county. Both of these hospitals will rapidly and aggressively treat your stroke. A smaller hospital may not have the proper specialist available or may not be as aggressive in their treatment.  $\square$ 

#### Let's Talk About Rats

The following article was submitted to the UCO Reporter by the concerned residents of Easthampton H to help others who might be in the same situation — "Rats Away!"

Among the many side effects brought about by a changing climate are some less visible than others. Nature is not always kind to its own and so other living creatures seek warmth just as we do. Are you aware of the possibility of the entrance of rats into your building and condo?

Our association has been battling a rodent invasion for the past two and a half months, and only now can we even begin to hope that we have won the battle. If you think you hear mice or squirrels in your attic, guess again. It is just as likely to be rats. Having found warmth, they can eventually enter the inside of your home in their quest for food.

I'd like to share our experience with you, in the hope of providing some useful information that we learned

the hard — and expensive — way. To date, we have spent **almost \$11,000**. Maybe our experience can save you some hassle, heartache and money. So, what do you do?

The first thing to do is to call a rodent expert. They have the knowledge, expertise and tools to tackle the problem in an orderly, systematic manner which is essential for thorough and permanent problem resolution.

The first thing they will do
— after soothing the nerves of
anxious condo owners — is
to educate you about what has
likely led to the problem and
what lies ahead in the process of
resolving it. They will then begin
by sealing all possible exterior
entrances to your building.

Next, they will set traps in your attic and check them every couple of days until the activity ends, which could take a while. They use specially designed cameras to view inside pipes and other hard to see locations, to find hidden entrance sites and to locate nests. We have had known entries into several condos, as evidenced by disturbances to food, droppings and urine dur-

ing the night. The number one entrance for rodents to access our individual units was found to be behind our hot water heaters. If you are changing your hot water heater in the near future, as some of us did during this process, make sure you tell your plumber to seal all the holes with plywood, wire mesh and/or number three steel wool.

We have also removed all insulation from our attics in three buildings, and sanitized the attics to remove any potential health hazards of decaying feces and urine. New insulation will be installed when we are sure the problem has been resolved. We have also learned much through trial and error, and by researching web sites on how to deal with rodents.

If you want your association to be proactive about this issue, I recommend having your building exterior sealed. We called Healthwise Environmental Services and have been very happy with them. These are our homes and we need to protect them in order to prevent rodents from making our homes their homes. □
